

VENREZ

OFFICIAL DECK

BIOGRAPHY

Formed in 2009, Venrez has been making a name for themselves with their high-energy live performances and powerful music. The Venrez rock band is comprised of Ven (as he is known to his friends) on lead vocals, Jason Womack on guitar and backing vocals, who has played with such acts as Fuel and Juliette Lewis and the Lick's; Victor Singer on drums who provides the powerful beat; and Gabe Maska on bass whose undeniable talent has resulted in him becoming a fixture on the Sunset Strip.

The band has released four albums to critical acclaim and has toured extensively, sharing the stage with legendary acts such as Slash, Alice Cooper, and mega bands including Buckcherry, Fuel, Hardcore Superstar, Michael Schenker, and punk legend Richie Ramone. Though the lead singer Steven Berez entered the music business later in life, he is showing the world how it is done.

Venrez says, "The band is thrilled to have signed a record deal with Wake Up! Music Rocks as well as the soon to be released first single from our new EP title track with music video 'Sip The Cup'."

Venrez released their first single, "Sip the Cup" late February, 2024, a song from their upcoming 6 song of the same name. Produced by platinum and Grammy award winning, Malcolm Springer and mastered by Ted Jensen.

DOCUMENTARY

A documentary on VENREZ is currently being edited and will be released on a major streaming channel in 2026.

"In February 2022, his debut EP with the record company was released with Ven now 67 years old. The 8 first commercial radio single from the EP for the band hit #2 on the Foundations Chart and #16 on the Billboard top 40!!! The band is now being booked for huge tours all through 2023 and Ven will have turned 68 right before the 8 first tour begins!!! It remains to be seen how big this rock band will become, although no one in the history of rock n roll has accomplished these feats at such a late age. A wonderful story of 'If you believe, everything is possible' proves the American Dream exists and it is never too late to live your dreams."
